

CCMH is proud to announce that following site visits to our Toronto and Cambridge campuses, we have achieved Full Accreditation!

We are the first private massage therapy college in Ontario to achieve this distinction!

#### **What is Accreditation?**

The Canadian Massage Therapy Council for Accreditation (CMTCA) is an independent organization formed to evaluate massage therapy educational diploma programs across Canada to ensure quality standards.

#### **What Does This Mean?**

The Accreditation Seal from CMTCA is an assurance of Excellence. This approval means that the education provided by a massage therapy program meets or exceeds massage therapy curriculum requirements created by massage therapy regulatory bodies across Canada.

These curriculum requirements are found in the *Interjurisdictional Practice Competencies and Performance Indicators*, to see what these requirements are, visit: [IJPCPIs](#).

This also means that the program meets all the additional standards required by the CMTCA – things like exceptional student support, educational resources, clinical experiences, and more! For more information on what these standards include, visit: [Accreditation Requirements](#).
