

Fran Blake, B.A., RMT

Fran originally trained and practiced Massage Therapy in Ontario before moving to the West Coast in 2004.

After many years of hands-on practice, Fran now blends her time between her clients and being the Clinic Coordinator at WCCMT Victoria. Being with the students during their training keeps Fran going back to the books and helps to maintain a fresh perspective.

Watching students have their “a-ha” moments when they start putting things together for themselves is a great reward. Fran still enjoys working in a small home-based practice as well, keeping her hands engaged and helping her clients.

For her, it is the best of both worlds. In her spare time, Fran can be found enjoying the life of a west coaster- on her paddleboard, camping, hiking, and hanging with her dog.
